AN ISO 9001:2015 CERTIFIED COMPANY

About Us

Dhaval Steel Forge, Rajkot is a trusted manufacturer of high-quality forged and machined components, serving industries with precision-engineered solutions. Equipped with advanced manufacturing technology and modern infrastructure, the company ensures superior quality, durability, and cost-effective products. With a strong focus on customer satisfaction, timely delivery, and continuous innovation, Dhaval Steel Forge has built a strong reputation in automotive, bearing races, and general engineering sectors across domestic and global markets.

Dhaval Steel Forge (DSF) is recognized as one of the leading manufacturing units in the development and production of high-quality forged and machined parts. Equipped with advanced in-house technology and modern engineering facilities, DSF delivers products with superior quality, functionality, and cost-effectiveness. As an ISO 9001:2015 certified company, DSF is committed to maintaining the highest standards in manufacturing and operational excellence.

At DSF, customer support remains a top priority, with strong focus on feasibility analysis, competitive pricing, production quality, timely delivery, and prompt issue resolution. The company believes in building long-term relationships through trust and responsiveness. Senior management remains readily available to meet customers at short notice, ensuring quick discussions and effective solutions for any challenges or requirements.

Dhaval Steel Forge operates from a state-of-the-art manufacturing facility spread across over 1000 sq. meters, featuring epoxy flooring, spacious production areas, a well-organized inspection and standards room, engineering offices, and modern administrative spaces. DSF has successfully supplied products to industries such as Automotive, Bearing Races, and General Engineering. Through continuous process improvement, technology upgrades, and a commitment to quality service, DSF has established itself as a trusted market leader in forged components and bearing rings.

Dhaval Steel Forge (DSF) is a leading manufacturer of forged and machined components, known for quality, precision, and reliability. With advanced technology, modern infrastructure, and ISO 9001:2015 certification, DSF serves automotive, bearing, and engineering industries with cost-effective solutions, exceptional customer support, and timely delivery.
